Python Syntax

[< Previous](#)[Next >](#)

Execute Python Syntax

As we learned in the previous page, Python syntax can be executed by writing directly in the Command Line:

```
>>> print("Hello, World!")  
Hello, World!
```

Or by creating a python file on the server, using the .py file extension, and running it in the Command Line:

```
C:\Users\Your Name>python myfile.py
```

Python Indentations

Where in other programming languages the indentation in code is for readability only, in Python the indentation is very important.

Python uses indentation to indicate a block of code.

Example

```
if 5 > 2:  
    print("Five is greater than two!")
```

[Run example »](#)

Python will give you an error if you skip the indentation:

Example

```
if 5 > 2:  
print("Five is greater than two!")
```

[Run example »](#)

Comments

Python has commenting capability for the purpose of in-code documentation.

Comments start with a #, and Python will render the rest of the line as a comment:

Example

Comments in Python:

```
#This is a comment.  
print("Hello, World!")
```

[Run example »](#)

Docstrings

Python also has extended documentation capability, called docstrings.

Docstrings can be one line, or multiline.

Python uses triple quotes at the beginning and end of the docstring:

Example

Docstrings are also comments:

```
"""This is a  
multiline docstring."""  
print("Hello, World!")
```

ASPOSE
File Format APIs

The advertisement features a blue and white geometric background. At the top, the 'File APIs for Cloud' logo is displayed. Below it, the text 'OPEN CREATE CONVERT & SAVE' is written in orange. A blue script 'Files' is followed by 'in your applications!'. The phrase 'Platform Independence' is in orange. A central graphic shows a stack of file icons (XLS, DOC, PDF, PPT, EML) with three upward-pointing arrows behind them. An orange button with a play icon and the text 'Try for FREE' is positioned below the file icons. At the bottom, the 'ASPOSE File Format APIs' logo is shown.

The advertisement features a blue geometric background. At the top is the 'File APIs for Cloud' logo. Below it, the text 'OPEN CREATE CONVERT & SAVE' is displayed in orange. A blue script 'Files' is followed by 'in your applications!'. 'Platform Independence' is written in orange above three upward-pointing arrows. A circular graphic contains icons for various file formats: DOC, XLS, PDF, PPT, and EML. An orange button with a play icon says 'Try for FREE'. The ASPOSE logo and 'File Format APIs' are at the bottom.

Redmi Note 5 AI DUAL CAMERA

The camera beast

mi

The advertisement shows three Redmi Note 5 smartphones in white, light blue, and black. The white phone is on the left, showing the screen with the time 8:16 and a colorful swirl icon. The other two are shown from the back, highlighting the dual-camera setup. The Xiaomi 'mi' logo is in the top right corner.
